Hi Sam,

I accepted all your changes, but added back in a couple of Mitigation Rule citations that were deleted. When I spoke to the Corps project manager she said the existing mitigation plan fully complied with the Rule, which clearly isn't true. So I'm trying to clearly identify all parts of the Rule where they aren't in compliance. Let me know if you still want to chat. I think this can wait until Monday morning.

Thanks,

Melissa

Hi Liz & Melissa:

Attached is a “new and improved” revised letter. It is based on feedback from Jason that I appreciated. It is shorter, states upfront what we want and I believe includes all the recommendations of your original draft. Please review yet again and tell me if this is good or not, and make changes as necessary. I’m sorry for the added work of me learning my way through this and hope it isn’t messing with your other work demands, etc. This is interesting to me and I greatly appreciate your work and the importance of the resources we are trying to protect. I’m not sure if you are working today. I’m not, but am happy to try to get this done today if possible and it works with our schedules. Also I’m available to talk at 510-290-6407. Thanks!
